

Navigation Setting on Comfort Series

- CT/CC Cruiser and CT/CC Elite -

1. Please download Navie from either the Apple or Android app store: Navie.app

2. Sign in to the app and enable Bluetooth on your phone.
3. Turn on your e-bike's display and simultaneously press the "up" and "M" buttons for three seconds.
4. Once the app is connected, entering a destination will display navigation information on your e-bike's display.

To exit this page, simply press and hold the "M" button for three seconds, and you'll return to the main interface.
